# My Mission Log

## Visit the Congo: GRACE

Name 

## A.2 Meet Amani

Use the space below to answer questions from lesson 1.2 and 1.3.

- How did Amani's story make you feel?
- After hearing about Amani's story, what questions do you have?

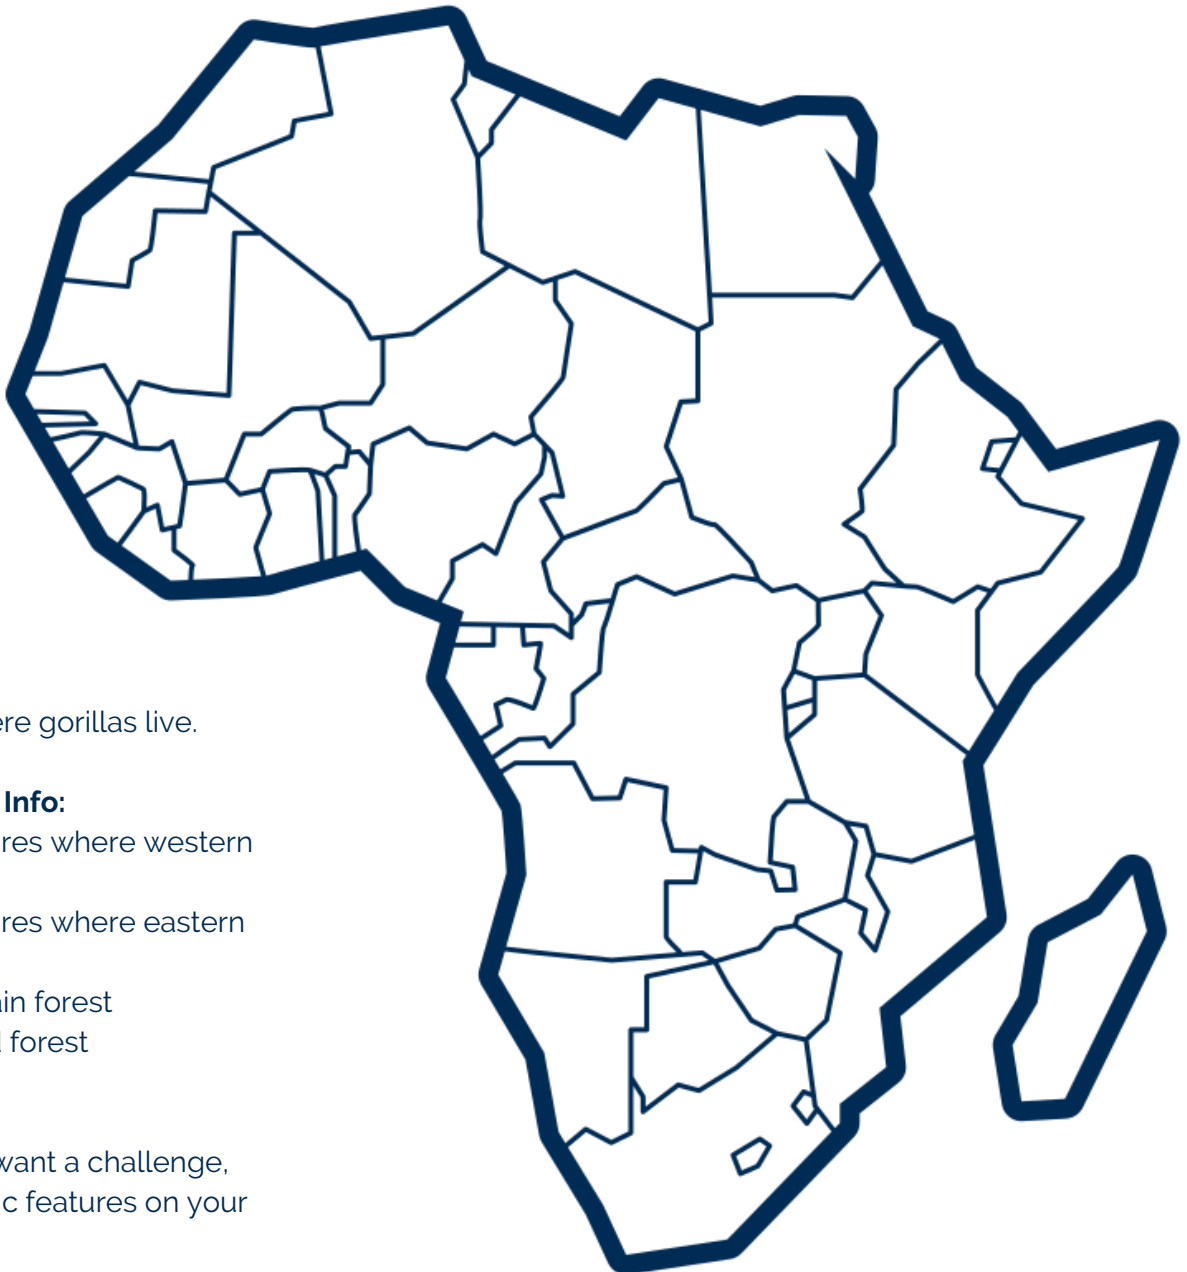

## A.3 Mapping It: Gorilla Habitat

To help gorillas we have to learn more about where they live and what their habitat is like. Now we're going to use two kinds of maps to find out more about gorillas and the places they call home. After we learn more about where they live, we'll make our own map of Africa to teach others about gorilla habitat.

**Directions:** Answer the two questions below by labeling the map of Africa. You'll use this map to create your own model map of Africa to help you teach others where gorillas live.

**Label** the map of Africa using the political map in lesson 3.4 and topographic map in lesson 3.5. Make sure your map includes the information below.

### A. Political Map Info:

- Six countries where gorillas live.

### B. Topographic Map Info:

- Geographic features where western gorillas live
- Geographic features where eastern gorillas live
- Location of the rain forest
- Location of cloud forest
- The Sahara

**C. Challenge:** If you want a challenge, include all geographic features on your map.
